I had to fight and tell them I had my own apartment there. Devine was a male nurse there who pull me aside and stated to help me out that I must take the medicine, I was have bad side effects. I was harass daily until dischore. I have requested for my case worker from Merakey (EaC) Extended Acute care to get a release of information of my documents I will submit them as soon as I receive them. I suffered there it caused my nerves to be very bad caused me horrid headaches. My eye was twitching very dangerous. And they just kept losing me where I would also remain light headed dizzy. They did nothing to help me. I was the only African American Black muslim women that they was doing this to. I was very unsafe there. It was Allah's blessing my mother had to

tell them I was a mother of 3 children and two minor sons that I take care of and I had my own apartment. I take very good care of myself and children. The state needs to shut Roxbury treatment center down. It was a horrific experience it is terrible there what they have done to me. I never deserve that at all. And about a month away from my freedom and children.
